S. V. GROW CANDIDATE FOR TWO YEAR TERM

SYLVESTER V. GROW.

Sylvester V. Grow, of Huntsville, widely known as a stockman and public-spirited citizen of Weber county, is a candidate for the nomination for county commissioner (two-year term) at the Republican county convention, September 30.

Mr. Grow has been a life-long resident of the county, and is familiar with its needs and resources. His knowledge of irrigation and roads frequently has been made use of by state, county and federal officials, who have found Mr. Grow always willing to leave his work to give the public, without cost, the benefit of his information and experience when new roads were planned.

Mr. Grow believes there should be an adjustment in the tax situation, especially in the assessment upon much of Weber county's farm land, and pledges his efforts, if nominated and elected, to work to the end that the burden shall be equitably adjusted. By reason of his extensive holdings and financial interests, Mr. Grow understands the position of the farmer as well as the business man and can be trusted to conduct his office in a business-like manner.

LOAD TO CAPACITY SHIPERS URGED

Officials of the Union Pacific system have requested all agents on the system to insist upon loading and unloading of all freight cars, especially refrigerator cars.

This request is in view of the acute shortage of cars, the officials say, and urge shippers to load to the maximum instead of the minimum weight.

Relative to perishable commodities the request sent out by T. S. Kinnersley, car service agent, says in part:

"As to the movement of perishable commodities, it appears that shippers are loading simply the tariff minimum although it was demonstrated during the past few years that up to October 14, the early potatoes could be loaded 30,000 to 35,000 pounds to the car; from October 15 to March 15, the mature potatoes could be loaded 40,000 pounds to the car; and for the balance of the shipping season, 30,000 pounds could be loaded; all with safety and without damage to the loading. Also, that apples in bulk could be loaded to a minimum of 35,000 pounds; boxed, to 750 boxes or approximately 37,000 pounds; and that other green fruit and vegetables could be loaded in excess of the tariff minimum without sustaining damage."

"The demand for coal equipment to move coal, sugar beets, lime rock, and other commodities, will increase from now on and we will be taxed to the utmost to provide the necessary equipment, so it is very essential that every effort be made to load and unload coal cars promptly."

ROBERTS CASE IS CONTINUED WEEK

The hearing of Robert M. Roberts, state motor vehicle inspector for Ogden, son of City Judge D. R. Roberts, was continued by Justice of the Peace George S. Dean of North Ogden yesterday to September 29.

Roberts pleaded not guilty to two charges of violating the law he was appointed to enforce. He was released upon his own recognizance.

Era Peterson is the complaining witness in the case. He is the proprietor of an ice cream company and charged that Roberts drove an automobile without number plates and also that he drove a car with the wrong number plates.
